

MILLBURN FARMERS AND BUSINESS MEN MEET AT DINNER

County Farm Advisor is
Speaker at Gathering
Monday Night.

Fifty business men of Antioch and farmers of Millburn met for a dinner and program in Millburn Monday night. The dinner was served by the women of the Millburn church.

H. D. Minto, a farmer, welcomed the business men to Millburn and spoke of the better understanding the business man and the farmer have of each other. Mrs. George White offered some vocal selections. She was accompanied on the piano by Mrs. Martin. Millburn. Two Antioch High school boys, Vernon Webb and Richard Martin, who live in the vicinity of Millburn, played violin duets.

H. C. Glickerson, Lake County Farm Advisor, was the main speaker of the evening, giving an interesting address on how the business man and the farmer can cooperate. He told of the wonderful opportunities that the business man has in encouraging the young as well as the older farmer to carry on the important work of producing food.

The 4-H boys' and girls' clubs work and its development in Lake county was stressed by Mr. Glickerson, who also explained the need for further encouragement. He brought out the surprising fact that in the United States the 4-H clubs have larger membership than have the Boy Scout and Camp Fire organizations combined.

An important matter was brought to the attention of the business men when John Nixon suggested early action and organization for bringing the Fifth Annual Poultry show into the business district of Antioch. It was said that business houses should prepare for the show and extend welcome to the visitors and offer merchandise at the annual fall sales. The poultry show is to be held December 13, 14, and 15.

C. L. Kull, president of the business club, has appointed a committee to make arrangements for the building where the show is to be held and to organize the merchants so as to have a definite manner by which the show visitors will be induced to visit every place of business while in town. Those on the committee are: Neal Shults, chairman; John Horan, Otto Klass, Homer B. Gaston, and Richard Corbin.

SELECT ILLINOIS BOY AS MODEL DAIRYMAN

Memphis, Tenn., October 11 (Special)—Meet Illinois' best young dairy farmer! He is Thomas Chamberlain of Charleston, Coles county, picked by E. I. Pichard, specialist in charge of junior club work at the University of Illinois, as the state's champion dairy club member for this year. Thomas is going to Memphis within a few days to spend a week at the National Dairy exposition here October 1 to 20.

In addition to paying all of Thomas' expenses on his visit to Memphis, similar educational prize trips are being awarded to the dairy club champions of Arkansas, Iowa, Indiana, Kansas, Kentucky, Missouri, Minnesota, Michigan, North Dakota, Nebraska, Ohio, Oklahoma, South Dakota, Tennessee, West Virginia and Wisconsin. This is in keeping with a practice inaugurated five years ago as a means of encouraging 4-H club boys and girls work.

One of the most interesting departments of the National Dairy show this year is the 4-H Camp which will be Thomas' headquarters during his Memphis stay. A judging contest in which boys and girls from 28 states will compete, a demonstration contest, a cattle show and a showmen's contest are among the scheduled activities. A total of \$6,125 in prizes, in addition to medals and other prizes, is offered in the club classes.

Sightseeing tours in and about Memphis and other recreations are being arranged for Thomas for his time away from the Exposition grounds. On Wednesday evening, October 17, he is to be a guest at a banquet which is to be attended by approximately 400 club boys and girls from every section of the country.

EACH TOOK \$50

After More Than Two Weeks
Continuous Dancing, Con-
testants Divide Prizes.

After 370 hours of continuous dancing, Monday morning at 7:45 o'clock the five remaining couples in the Antioch Palace Marathon dance contest decided to quit dancing and divide the \$500 offered in prizes, each person receiving \$50 for two weeks of dancing.

Miss Juanita Nickerson, Lake Villa entrant, remained in the contest until the last. During the last 20 hours of dancing there were no rest periods or intermissions.

When one of the dancers suggested that the prizes be divided, the contestants debated hotly for half an hour before the decision was finally reached. Couple 8, Miss Berle Erlich and Arlie Wilson, seemed to be in the best condition of any of the dancers. And this couple was least expected to win in the opinion of the spectators.

The marathon attracted thousands of persons during the two weeks and the dancers won the favor of the large crowds.

PRAISE EMMERSON AS ABLE OFFICIAL

Secretaries of State Association which He Organized Proclaim Nominee as "Next Governor."

Secretary of State Louis L. Emmerson, Republican nominee for Governor, is in receipt of a copy of a resolution adopted by the National Association of Secretaries of State at their annual convention in Black Hills, South Dakota. The resolution calls Mr. Emmerson the "Daddy" of the organization because he was the prime mover in the working out of an association of the various secretaries of state for the purpose of discussing official problems.

After declaring that the association has learned that Mr. Emmerson "will be the next Governor of the great state of Illinois" the resolution states that "we know that Louis L. Emmerson is a militant and eager lover of life; an unselfish servant of men; in friendship sincere and loyal; in leadership able; unspotted by praise; unswayed by blame; unconquered by adversity; a man of valiant faith, dauntless courage and boundless affection; and therefore 'BE IT RESOLVED, that, though we are highly conscious of the distinction conferred upon him we feel that the citizens of his State are honoring themselves by honoring him, and that our loss is his country's gain.'"

DUMPS GARBAGE; IS FINED \$10

Pleading guilty to a charge of dumping garbage along the public highway, George Sames was fined \$10 and costs when arraigned before Justice Sam Turbell. Sames is employed by the E. Tackie fruit concern. The arrest was made by Frank Valencia.

Much garbage has been dumped on the public highways according to Highway Commissioner Frank Dunn, and strict watch is now being made for violators who will be subject to fines.

WOMAN IS INJURED

A fractured collar bone was sustained by Mrs. George Kuhaupt in an automobile accident in Wisconsin Sunday, when the Studebaker sedan in which she was riding was struck by a Ford coupe and turned over. Mr. Kuhaupt and a son-in-law, Ray Thompson, Liver Forest, who was driving, were uninjured.

The car in which the Kuhaupts were riding was going north on the cement, and the other car approached from the east on a gravel road. Both cars were badly damaged but were covered with insurance.

BRISTOL MAN WANTED

ADmits INTOXICATION AFTER ARREST MADE FOLLOWING ACCIDENT

Fine of \$50 and Costs is
Paid by Driver of
Automobile.

Charged with operating an automobile while intoxicated, Harry McGregory, Waukegan, was fined \$50 and costs when arraigned Sunday before Justice Sam Turbell, and McGregory's companion, Jess Green, also of Waukegan, was fined \$5 and costs on an intoxication charge.

The men were arrested by Motorcycle Policeman Frank Valencia after an accident which occurred Saturday night on Route 21, one block south of the village limits. McGregory, it is said, was driving a Ford coupe owned by the Herberger Rent-A-Car agency of Waukegan. He was going north and ran off the pavement, according to Mr. Valencia, and in attempting to get back on the road, lost control of the car and the machine was overturned. The men were placed in jail overnight. Neither was injured.

Wanted by the Libertyville chief of police, James K. Ashley, Morgan town, Indiana, and Jay Lytle, Des Plaines, Illinois, were arrested this morning by Officer Frank Valencia.

The men, wanted for larceny, are charged with buying gasoline at a Libertyville filling station and driving away without paying. It is also alleged that they tried to cash a \$20 check in the same city, for \$5. Mr. Valencia found a blank check in Lytle's pocket. Lytle, who was driving the motorcycle, wore a deputy sheriff badge.

The two will be taken to Libertyville this afternoon.

GRADE SCHOOL BOYS MAY BECOME TRAFFIC OFFICERS IN ANTIOCH

Legion Is Planning To Or-
ganize Student Patrol.

Plans were discussed at the last meeting of the Antioch Post of the American Legion, for the forming of a student patrol. If the plans are carried out, eighth grade boys will serve as traffic officers for the protection of smaller school children on the way to and from school, especially at street crossings.

The Legion members also furthered plans for awarding medals for scholastic standing to deserving grade school children throughout this district.

New efforts will be made by the post to increase the membership of the local chapter. Membership cards for 1929 have already been received.

Firemen Elect Heads

Officers were elected at the annual meeting of the Antioch Volunteer Fire department Tuesday night. Frank H. Huber was chosen president; John L. Horan, secretary, and George Garland, treasurer.

Members of the village board were present to discuss a proposition for excavating under the front of the fire station for more basement room, the work to be started in the near future.

dition signed by Gov. Zimmerman, of Wisconsin.

Williams, according to the deputy, was released two days ago on a \$2,500 fugitive bond returnable Friday. Until then, he admitted, little could be done.

Everyone Is Wanted To Attend
Rally Next Monday Night.
Neighbors, Wives and
All Are Invited

Republicans of Lake county will have a rally Monday night in Waukegan—at the armory. The candidates for United States senator, as well as for all state offices will be present. The slogan adopted is to fill the armory with Republicans and Hooverites—then fill the rest of Waukegan with the overflow—and then make it known that everything is for a Republican landslide.

We Like 'Em

The News Office force worked late Wednesday night—but there was a reward for the extra time. Reward in the form of melons from the George Dunford farm, Channel lake. There were watermelons and cantaloupes—we say WE'RE because now they aren't. They did last until press time today, and they made the task of getting out the paper even more pleasant than usual! The force extends thanks for the party.

DAMAGE IS \$10

A fire alarm was answered by the Antioch Volunteer Fire department Saturday afternoon at 3 o'clock when oil rags in a garage in the California sub-division caught fire. The firemen extinguished the blaze. Damage is estimated at \$10.

CHICAGOAN ADMITS KILLING FARMER

Cland Clark, alias Clifford Pauchamp, Chicago Negro, this week pleaded guilty before Judge C. C. Edwards to the murder of Will Beck, Millburn-Lake Villa farmer, May 16. He will not be sentenced, State's Attorney Smith said, before October 22, when the date for trials of the other four men held in the case, has been set.

Clark, it would appear from this, is to be used as a witness against his former pals, although the state's attorney refused to confirm this.

"I didn't know that he was to plead guilty. It came as a surprise," Col. Smith said.

The other four men, Harold Martin, Donahue Brossett and Arthur Boone, entered pleas of not guilty through their attorney, George W. Field, who lost a motion to quash the indictments.

John Brown, the fifth member of the alleged gang, did not enter a plea. An attorney is to be appointed for him by the court.

Clark, Brossett and Boone, according to a confession made by Brossett, tried to force the door of the Beck home open. He slammed it and Clark fired through the door, according to Brossett.

They went there to get bonds that Beck was supposed to have secreted in his home, he said, and they over-looked about \$1,200.

The other two Negroes furnished the car, according to the confessions, and were not near the home.

MARRIAGES, DIVORCES, ANNULMENTS GREATER IN COUNTY IN 1927

Preliminary Report Issued
By Commerce Department.

That Lake county had more marriages, more divorces and more annulments of marriages in 1927 than in 1926, is revealed in the report issued this week by the federal government.

Last year 5,983 couples applied for marriage licenses as compared to 4,743 the year before. There were 177 divorces granted in 1927, while in 1926 there were nine less. Eight marriages were annulled in 1927, and six were annulled the previous year.

The Department of Commerce announces that, according to the returns received, there were 80,222 marriages performed in Illinois during the year 1927, as compared with 82,629 in 1926, representing a decrease of 2,397 or 2.8 per cent. In 1926, there were 68,529 marriages performed.

During the year 1927 there were 14,984 divorces granted in the state, as compared with 14,125 in 1926, representing an increase of 859 or 6.1 per cent. In 1926, there were 5,546 divorces granted. There were 216 marriages annulled in 1927, as compared with 204 in 1926.

The estimated population of the state of Illinois on July 1, 1927, was 7,296,000, and on July 1, 1926, 7,203,000. On the basis of these estimates of marriages per 1,000 of the population was 11.0 in 1927, as against 11.5 in 1926; and the number of divorces per 1,000 of the population was 2.05 in 1927, as against 1.96 in 1926.

The number of marriages was furnished by the county clerk of each county and the number of divorces by the clerk of the circuit court of each county and by city clerks having divorce jurisdiction.

POTATOES?

Pat Ones. Round Ones, Square Ones—Oh, No! But Odd Ones To Say The Least.

Big potato, little potato—That's the way the old childhood rhyme starting for "counting out" to see who would be "it". But little potatoes aren't among those which George Dunford brought to the office of the Antioch News, where they are now on display. Mr. Dunford raised the potatoes on his farm at Channel Lake.

The potatoes weigh from three to five pounds each, and they are freaks. One resembles a lobster. Another has been identified by different persons as a gingerbread boy, an old man and a turtle. Another thinks one of the potatoes looks exactly like an airship with one wing! Well—the best thing to do to satisfy the curiosity is to come to the office and look 'em over.

Two Chances Left

Registration for those wishing to vote at the November elections is to be held October 15 and October 20. On the first registration date booths are to be open from 9 o'clock in the morning until 2 o'clock in the afternoon, and on the latter date one may register from 8 o'clock in the morning until 5 o'clock in the evening.

Persons who voted at the primaries in April have their names already on the registration list, and those who did not have only two more opportunities to be among those who may cast their presidential ballots as well as ballots for state offices.

IT'S MOVING TIME

And The Wetzel Company Fall Right
In Line By Moving Across Street

This is house-cleaning season for the housewife, and moving time for the Wetzel Chevrolet company, for the offices and display room of the concern are being moved into the new stucco building across the street from where the present headquarters are located.

The building on the outside is an attractive mottled sand color, the window extension on the floor above having a green tile roof, harmonizing with the soft shade of the background and the faint touch of green around the windows and door. The display room is large and light, and will afford a pleasing and desirable place to show Mr. Wetzel's cars.

Everybody worked at Wetzel's this week, and everyone at least appeared to be enjoying it. When asked for details concerning the new business home, Mr. Wetzel, never stopping his work, replied:

"Well, we're just moving—that's all. Hope we'll like it, and think we will."

So that's that!

STUDENTS WRITE

Students of the Antioch High school home economics department, under the supervision of Mrs. Ruby Richey, have been writing compositions about dress and dress accessories. The girls have spent a great deal of time with the themes, and they are both interesting and instructive.

Three of the best, written by Helen Pedersen, Marjorie McKinney, and Grace Nelson will be printed on the school page in various issues of the News. Grace Nelson's is to appear next Thursday.

Mrs. Sweeney, who has been associated with the Antler hotel since it has been under the management of the Holderness brothers, left Monday for an indefinite stay in Arkansas.

Good Times? Wow!

Did you spend a sleepless, drowsy end of the week? At least seven Antioch Boy Scouts didn't have a dull time, for those boys, accompanied by Clifford Hook, went to Urbana to attend a state Boy Scout convention. Saturday they went to the Illinois-Bradley football game, and Sunday they went to Bloomington where they visited Lester Nixon and Miss Catherine Kral, students in the university in Bloomington.

Boys who made the trip were Harold Nelson, Leonard Kral, John Brogan, Billy Gray, Dan Williams, John Dupre, and Bob King.

PROBE IS STARTED TO LEARN REASON FOR SHOTS FIRED

Channel Lake Youth
Is Injured Saturday
At His Home

Investigations are being made regarding the mysterious shooting of William Reschke, 21, Channel Lake, who was hit twice Saturday night by bullets that came out of the darkness. Further developments are expected Saturday morning, Deputy Sheriff Milt Crandall said this morning.

The youth who was shot is the son of Mrs. J. Hernes, who owns a store at Channel Lake. He received a wound in the right thigh and in the hip. He was taken to the Lake County General hospital and as his wounds were not considered serious, he was removed to his home Saturday night.

According to Reschke, he had heard a crash in the yard about 10 o'clock Saturday night. He and a friend, whom Deputy Crandall knows only as "Windy Hill" went out of the house to see what caused the disturbance. They could see nothing, they reported, so went in the house for a lantern, and then went back outside. Reschke told the officer that he heard noises to the right of him and to the left of him and then three shots rang out from the left. Two went in the youth's body, but the third lodged in a window sill.

After Deputy Crandall and Chief Fred Brown arrived, it was learned that the crashing noise had been created by the smashing of the tail light of Reschke's automobile, which was in the garage.

Several weeks ago Deputy Crandall recalls, Reschke was arrested on a charge of disorderly conduct, after an affidavit was filed by George Dunford, also of Channel Lake. Reschke then had Dunford arrested and John Smith, Channel Lake, asked a peace warrant for the man. When the men appeared before Justice Hervey Coulson, Mr. Crandall says, Dunford is alleged to have been accused of walking around with gun in hand, threatening Smith and Reschke. The cases were dismissed. Dunford is to be questioned in regard to the shooting of Reschke Saturday.

Hats! Distinct new creations, featuring off-the-face lines, eccentric brims, new heret ideas and pokes to be worn far back with new jaminess, are now being shown in shops. Autumn's newest shades and materials have been made into beautiful hats. Some of them are clever little close-fitting effects and there are chic new brims, fashioned in various widths and angles.

A rose color felt had a white piping. The hat fit closely about the face. In the front a white ivory dagger pointed prunkishly at those who watched the girl who wore it at the Antioch-Waukegan football game last Friday.

One woman who came in the bank Saturday wore a black satin hat which had a small—oh! ever so tiny!—brim. The hat had a tailored look. A black band was about one inch wide, and it fastened on the left side with a beautiful rhinestone buckle.

A dark brown felt had a tan felt feathershaped ornament on the side where the wide brim turned up. Maybe it isn't always the best thing to look for fashionable hats in the church, but this one was seen last Sunday in Antioch.

Apples! Fried apples, baked apples, candied apples, apples in salad, apple sauce, plain apples—anything. Just so they are apples. Sometimes though, it is pleasant to try new dishes.

Butter a casserole and cover the bottom of the dish with pork chops, well seasoned with salt and pepper. Then add a layer of sliced raw apples, dotted with butter, and then a layer of mashed, cooked, sweet potatoes, then repeat. Add about one-half or three-quarters of a cup of boiling water, put on the lid, and bake for an hour and one-half in a moderate oven.

Cubes of squash, parboiled, are delicious baked in a casserole covered with hot tomato sauce, bread crumbs, a layer of apples, and a dash of butter.

A chilled tomato salad that is really a surprise is one filled with very fresh cottage cheese, a tiny bit of apple, finely chopped, and nuts. Serve with mayonnaise.

(Do you boys and girls all remember about the squirrel-children out at Fox Lake? Well, there are many, many squirrel children and Edith and Ila W. of Kenosha, Wisconsin, want to hear about the red and the gray squirrels who live along the banks of the Fox river. Have you sent your name to the story writer?)

The Reddy-Coat Squirrels are the happiest family along the Fox river bank. That is, they would be the happiest squirrels if the Gray-Back Squirrels didn't live along the same river! So you see, boys and girls, one family is just as happy as the other family and both families are very, very happy all of the time.

Since this is a newspaper and should tell things which have happened recently, the story writer is going to tell what happened yesterday. Are you all sitting in comfortable positions so that you won't have to move while listening to the tale of the squirrels?

Mr. and Mrs. Reddy-Coat Squirrel have three children, Nut-lover, High-Jumper, and Scamper. Mr. and Mrs. Gray-Back Squirrel named their two children Plume-tail and Sharp-claws. Aren't those all the best names for squirrel-children?

Yesterday all five of the children were playing "house and town." They'd dress up in their mothers' and fathers' long clothes and they would imagine they were grown and they would visit from one house to the other. The squirrel-children used boxes for their play-houses. Nut-lover and Plume-tail, the little girl squirrels, thought they had never had so much fun, but the boys didn't like to play that way so well.

"This is too stinky," High-Jumper said as he gave a leap from a low branch and landed clear to the top of the highest walnut tree along the banks of Fox river.

"I think so, too," Sharp-claws agreed, and Scamper shouted that he wanted to play a boys' game.

The girls were disappointed but they didn't want to play by themselves so they said they would play boys' games.

"Let's play jail!" one of the boys exclaimed.

"No, let's play Indian," one of the boys suggested.

But it took Scamper to solve the problem.

"Let's play Indian and war and then the side that is beaten can get out."

"All right," said Nut-lover, "I'll be the chief and you be the soldiers."

"I'll be the chief and you be the soldiers," said Nut-lover, "I'll be the chief and you be the soldiers."

"I'll be the chief and you be the soldiers," said Nut-lover, "I'll be the chief and you be the soldiers."

"I'll be the chief and you be the soldiers," said Nut-lover, "I'll be the chief and you be the soldiers."

"I'll be the chief and you be the soldiers," said Nut-lover, "I'll be the chief and you be the soldiers."

MEETING WAS GREAT

The convention this year was attended by Mrs. Ruby Richey, head of the home economics department of Antioch High school, and Clara Christensen, a student. The sessions were held at Western Illinois State Teachers' college. The students who attended the conference lived in dormitories, while the teachers stayed in hotels.

Mrs. Richey gave a talk on the school cafeteria and hot lunches. She stressed the importance of the project and gave some of the information which she has gathered through her experiences at the local school.

Talks by eminent physicians, food specialists, and professors of home economics featured the convention. A banquet and a luncheon were held also. The convention next year will probably be in Joliet or Chicago, Mrs. Richey reports.

HAVE REAL MUSIC

Most everyone likes to see a boy play the piano. It's really worth while to go down to the grade school, in the eighth room, and see John Marrie playing the piano for the students to sing. John enjoys it. The students enjoy it. Mr. Petty, the teacher, enjoys it, too, because when John is at the piano and the students start singing, he can attend to duties in other parts of the building and know that everything will be all right.

Only a Girl, But—!

Business men are trying to put Antioch on the map. Antioch each year is becoming better known. The village now has a new star shining in its crown, for last week Margaret McCormack of Antioch Township High school was elected state secretary of the Illinois State Home Economics Students association at the annual convention held in Macomb. Margaret is a sophomore, and her home is in Salem. She is treasurer of the local Home Economics club, and is already looking forward with much pleasure to the convention which she will attend next year.

School To Exhibit

An invitation by the Chamber of Commerce, Waukegan, was extended to the Agricultural department of the local school to have exhibits at the Waukegan Fall Festival, October 13 to 20.

The local department is to set up two exhibits, each 16 feet in length. One will teach the lesson of soil fertility and the other will show products produced in Antioch township. The exhibits will be put up by the Agriculture classes under the supervision of C. L. Kutid, instructor.

(Students of the eighth grade, under the supervision of W. C. Petty, have been writing compositions about the Constitution. The following is one of the best. Others will appear later.

The Constitution of Our Country

By Donald Snyder
The wise men of the nation saw the need of a stronger government. James Madison of Virginia and Alexander Hamilton of New York were very active with voice and pen in the making of a firmer government.

John Jay, Madison and Hamilton, wrote a series of papers called the "Federalists" supporting the Constitution.

In 1785 delegates from Maryland and Virginia met at Washington's home to settle a dispute about navigation on the Potomac river between these states. It was decided that if two states could settle dispute on trade it might be well for men from all the states to meet for the purpose of the commercial trouble of the country. Presently Virginia asked the other states to send delegates to such a meeting at Annapolis. Five states sent delegates to the Annapolis convention of 1786 but little could be done by that body, although the men that were present saw the need of a stronger national government that had power to regulate com-

merce, and therefore called another convention at Independence Hall, May 25, 1787, to revise the Articles of Confederation. All the states except Rhode Island were present.

It was decided that they would make a new Constitution instead of patching the Articles of Confederation. Washington was the President of the Convention. Franklin and the two brilliant young leaders Madison and Hamilton were the three great men on the floor. Next to these four stood such men as John Dickson, Robert Morris, Roger Sherman and Oliver Ellsworth of Connecticut and other great men were present. Samuel Adams and Patrick Henry did not come because they did not desire stronger national government. Jefferson and John Adams were representing their country in England and France.

When the problem arose as to how they should choose their representatives according to the number of inhabitants, the southern states, with lots of slaves wanted to count the slaves as part of the population and the northern states didn't want the slaves counted because there weren't many slaves there, but when it came to paying taxes they changed sides. After a hot debate it was decided that 3/5 of the slaves should be counted for each purpose.

The North was eager to give Congress the right to control commerce but the South agreed to let it have the right to do so, but Congress couldn't stop the slave trade before 1808. When New Hampshire ratified the Constitution in 1788 it became the law of the land. There are nineteen amendments up to date.

That the students of the grade school may become familiar with some of the best known artists and their paintings, a series of reproductions of masterpieces are being posted on a chart in the lower corridor each day for a period of two weeks. Information is also posted regarding the painting and the life of the artist.

Children of the first grade, taught by Mrs. Charles Lux, are busy these days learning songs and games. Some of the children like to do solo work and Irene China is one who finds great pleasure in singing. She especially enjoys "Tom, Tom, the Piper's Son."

The competition between the various grades of the Antioch Grade school to have perfect attendance, is growing keener. Miss Patterson's pupils of the seventh grade are leading at the present time.

T. A. Simpson, county superintendent of schools, and U. J. Hoffman, state school inspector, visited at the Antioch Grade school Tuesday.

Grade school pupils of the seventh and eighth grades have organized to play basketball. Miss Mrs. Royal and Miss Dorothy Patterson are in charge of the girls' teams and W. C. Petty directs the boys.

MILLBURN

Mr. and Mrs. J. S. Denman spent Wednesday in Milwaukee attending a convention for insurance company agents.

Mr. and Mrs. F. G. Edwards and children spent Sunday with the Earl Edwards family in River Forest.

Miss May Dodge spent Sunday with her cousin, Mrs. John Hues, Rochester, Wisconsin.

Mr. and Mrs. Howard Garby and daughter, Chicago, spent Saturday at the W. M. Bonner home.

Mr. and Mrs. Robert Bonner and sons spent Sunday in Kansasville with Mr. and Mrs. George Beaman.

The Ladies' Aid served dinner to the Antioch Business Men's club in Munson's hall Monday night. The Millburn business men were also present. There were 31 from Antioch and 17 local men. The business men are invited to come back to Millburn with their families on November 2, to the roast chicken supper and bazaar.

The P. T. A. held the first meeting of the year at the school Tuesday night. After the usual business, Miss Alice Smith, Grayslake, teacher in Antioch High school, gave an interesting talk to the parents.

Mr. Pierstorff has accepted a call to be pastor of Millburn church for a few months.

How to get the right kind
of **LIGHT**
in your kitchen

PLENTY of well-diffused light in your kitchen not only makes it a more cheerful and pleasant place to work in, but it saves time, trouble and breakage.

In moderate-sized kitchens a single ceiling fixture with a 150-watt Mazda Daylight lamp assures complete satisfaction. In larger kitchens, additional brackets with 60-watt

Mazda lamps should be placed over the sink and near the range. A 150-watt lamp in your kitchen costs less than 3c during the preparation of a meal.

ANTIOCH TEAM WINS SECOND GAME DEFEATING WAUKEGAN SECONDS 18-0

Dismissing out to the Waukegan High school second team the first defeat of the season, Antioch High school football warriors came out on the long end of the 18 to 0 score Friday. The game was interesting — much more so than the Antioch-Barrington contest of the week before.

Fumbles were numerous with both teams throughout the game. In the first half Antioch did not play as good football as in the last two periods. The Waukeganites did not seem to act quickly enough although they bent every effort toward making plays that would result in scoring.

The first quarter ended with each side having a goose-egg, but Antioch, early in the second quarter, started working earnestly for a touchdown. Sheehan, left half, made a beautiful 40 yard run which resulted in six points for the local boys. Another long run was made in the same period—this time by Strametz, and the score was increased by six. As when the first touchdown was scored, the trial for the extra point was unsuccessful. So it was 12-0 when the gun shot announcing the end of the half was fired.

Although only six points were scored in the last two periods of play, Antioch played consistently better football than earlier in the game. One of the high spots of the third quarter was when Strametz intercepted a pass and ran for almost 35 yards. After that play it looked as though Antioch were about to score for the half was only about 10 yards from goal. An end run was not successful. Wertz was able to tally six but a third attempt to kick goal was a failure.

Antioch Loses

Antioch High school football team suffered the first defeat of the season yesterday afternoon when the Libertyville second team won on the Antioch field 31 to 0. The Libertyville players displayed clever football and their playing in most all respects far outclassed that of the local boys.

The Antioch team goes to Leyden, Franklin Park, October 19, where I. R. Watson, former coach here, is head of the athletic department. The next home game is with Warren, October 27.

The scores of the last Northwest conference games follow: Arlington 2-Warren, 9; Barrington, 7-Leyden, 9; and Libertyville 49-Bensenville, 0.

FIGHT FANS LOOKING FOR GREAT THRILLERS PROMISED AT PALACE

Bouts Last Week Were
Good, But Treat Is In
Store.

Usually in writing stories of boxing matches, one tells, first of all, about what has happened. There are exceptions to all rules, however, and this is one of those times, for which exceptionally good card starting Antioch Palace fight fans in the face for tomorrow night one forgets all about last week's bill—even though all of the bouts were mighty interesting.

Tomorrow night men from Plinkie Mitchell's gym in Milwaukee will oppose boxers from the Sammy Mandell quarters in Rockford. Plinkie Mitchell, former junior welterweight champion of the world and Sammy Mandell, world's lightweight champion, will be introduced in the ring. This is the card offered by Promoter Dick Mack.

For Dick Mack, Milwaukee: Lou Buckman 134 lbs. Gus Desalvo 140 lbs. Frank Samiz 133 lbs. Joe Parn 119 lbs. John Gaudes 125 lbs. Mat Daufman 147 lbs. Sig Novak 144 lbs. Elmer Bennett 151 lbs. Westy Johnson. Last week the double windup was a real windup—full of thrills and all that. In the first place, Barney Ross scored what the woman sitting next to the writer termed a "honey-foot" k. o. Ross was fighting with Ted Dahson of Sammy Mandell's gym. Ross did some hard hitting and early in the second round, the show was over.

Crowd Is Thrilled
It took four rounds for Eddie Burke, A. A. U. champ, to defeat Larry Levette, Waukegan, but he did, Levette never for one moment, however, gave up fighting. No one doubted that at the end of the third round a disagreement would be announced, but after the extra tilt, it was evident that the bout was Burke's. The winner did not find easy shedding at any time. It was a real fight. Never has a better one been seen in the local ring.

One Fight Less
Two fights were planned for the semi-windup, but Oy was overweight and so his bout was called off. Carl

Conti, Rockford, was defeated by Hoskins, Genoa City, on a foul in the second round. Jimmy Chase, Tribune Golden Glove champion after three rounds. Chase found more opposition in this Mandell product than he has had for several weeks.

In the preliminaries James Kane, Kenosha, beat Mort Maxedon, Waukegan, after the customary three rounds. Eddie Peddle, Lake Forest, was declared winner over Howard Craft, Grayslake, but four rounds were needed before the decision could be reached. Fritz Bohrens, Lake Forest, caused Joe Drinka to suffer defeat, and Tony Mandell, of the Mandell gym, lost from Histy

THE HAPPIEST DAYS OF ALL

As one walks along the streets of Antioch, one cannot help but think what honest-to-goodness times dozens of children are having at play. How interesting it is to notice, too, how each season brings its own pleasant hours. In the winter there are coasting, skating, and snowballing. And what boy does not get out his marble bag and his tops in the spring? Summer brings the desires for having picnics, playing store, making mud pies and cakes. But now it is autumn! What fun Antioch children are having roller skating, playing Indian and playing cowboy. One day last week three small boys were seen waiting anxiously in front of the bus station. For almost one-half hour those children sat there, often expressing the wish that the bus would hurry and come. Inquiry revealed that one of the boys' mothers was coming from Waukegan and bring him an Indian suit. When that mother finally did step off the bus six eyes opened wide. The mother carried a box. And—inside the box was the coveted play suit. Within 10 minutes the suit was being worn on the street and the wearer was a hero among heroes. Now every boy wants an Indian suit, a cowboy suit or something of that sort. Small heads may be seen bent over catalogs as each child selects the suit which he'd like best. It is the same way when a pair of roller skates is heard on the sidewalk early in the season. Every child wants to get out his skates and soon there are so many that frequently along the street one notices signs asking children not to enter stores or business houses wearing skates.

What one child wants, every other child wants also. It is human nature. Even tiny boys and girls want something just a little bit better than his or her play mates own. The "keeping ahead of Lizzie" idea is uppermost in the minds of the majority of adults, too. Perhaps it isn't recognized as the best policy, but no one can deny that an older person (especially a woman) gets a great deal of satisfaction out of having something a tiny bit better than a neighbor or friend. If one were contented to have something just equal to someone else's, and no better—it one did not harbor the desire to keep getting better things and to keep struggling upward all of the time, what would the world amount to? Maybe the motives ARE selfish but through them the world is kept progressing. So a child often is not as selfish as he is pictured. He is merely starting what he will continue throughout his life.

Tariff And Working Conditions

Henry M. Beard of Detroit, founder of the Lincoln Motor Company, is speaking:

"Our 400,000 wage earners work altogether the shortest hours and receive by far the largest wages of any wage earners on earth. If tariff schedules are reduced to a point where manufacturers in the cheap-labor countries of Europe can bring their products into this country and under sell our own products, there is then one of two things for our industries to do and that is, reduce wages to meet that competition, or close down their plants and throw millions of our workmen into idleness. Our people largely spend as they get; in fact, many of them spend far in advance of their incomes, and the want and distress which would result from the cutting off of their incomes, and the result to their creditors, are absolutely indescribable."

Mr. Leland is not merely viewing-with-alarm for political effect. His statement is a well-reasoned argument for the continuation of Republican policies under the leadership of Herbert Hoover. It is a statement which concerns every man who works and every man who has what Mr. Hoover calls "the will to work."

There can be no doubt that the prosperity which has characterized the administration of President Coolidge is due in no small measure to the operation of the protective tariff, the central principle of the Republican economic doctrine. "Coolidge prosperity" is actual, not mythical. The proof is to be found in the fact that City.

CAPITAL PEOPLE TALK IN CONGRESS AND OUT

Not all the talking in Washington, D. C., is done in the houses of Congress.

During the past year telephone calls in the capital city of the nation increased on an average of 60,000 a day, so that now, such telephone calls figure up to about 620,000 a day as compared to an average of only 560,000 a year ago. The event in 1927 which placed the greatest strain upon the Washington telephone service was the tornado of November 17, when a total of 650,000 calls were made. The day previous to the arrival of Colonel Charles A. Lindbergh saw a total of 630,000 calls.

There are now 145,000 telephones in Washington or one to every 3.5 persons. This represents a net gain of 14,000 in the last five years, which is the equivalent of 42.5 per cent. In 1911, during the administration of President Taft, there were only 43,387 telephones connected with the

4,000,000 more men are now employed than at the beginning of this administration, that wages are high and living conditions better, that agriculture has largely recovered from the condition into which it was pitched by the Underwood tariff, that the business outlook continues to grow better.

If the worker in the United States is to preserve his home from want, he must have a protected market—a market of the sort which a fair, protective tariff guarantees.

Mr. Leland talks dollars-and-cents wisdom when he calls attention to the danger of lowering the tariff. Productive workers of whatever sort or class will do well to heed his words.

You've Surely Noticed It

"PEP."

This word is found in almost everyone's vocabulary today. When meeting a person, one soon unconsciously, perhaps, is deciding if that new acquaintance has pep—or doesn't have pep. The word is used in many ways. Business men talk of "pepping up the business." Milliners have added the "hat with lots of pep" to their lines of sport fets. Magazine and newspaper editors demand articles and features with "peppy leads." But if one is looking for a real illustration of pep, just follow the crowds to an Antioch Township High school football game. Watch the high school girls, especially. If a poor play is made, the player at fault is cheered and told that the mistake is all right. If such a youth is injured, no matter how slightly, almost instantaneously his name is on the lips of every spectator. Even before playing actually starts the girls are yelling and cheering as much as they can. They have "pep" in every sense of the word. If this pep continues when they are older, what a booming town Antioch will be! Hub of the 1-1e region? Hub of the world!

Alarmed by the human appeal Herbert Hoover is making to the people, Democrats are charging that in 1924 the Republicans nominated an ice box and in 1928 an adding machine. That's all right, but add to it that the ice box has had milk, eggs, butter and nourishing food in it every day since, and that from 1929 on, under Hoover, the adding machine will be kept busy totaling increased wages of working people, who, without any assistance, can in contrast see all the horrors of Democratic competitive tariff.

The Timmamy candidate for President, Alfred E. Smith, says business is so bad the country is going to the dogs. Alfred P. Sloan, Jr., President of General Motors, where John J. Raskob used to work, says business is prosperous. Governor Smith is a politician. Mr. Sloan is a producer.

Joe Robinson, Democratic candidate for Vice President, says the Democrats are not afraid of losing the Solid South but he is impressing upon them that if Southern Democrats do not stop declaring for Hoover the Solid South will be shot to pieces.

Unless all signs fail victory for Herbert Hoover is just as sure as the world is round. The way people are rushing to Hoover, high, low, rich and poor, one with another, is the proof.

Herbert Hoover knows more, perhaps, about how the other half lives than any man in public life. The people realize this and that is why they are for Hoover for President.

Senator Curtis, Republican candidate for Vice President in his farm talks is putting an awful crimp in the Democratic plan of farm relief, which, as a matter of fact, is no plan.

Too bad Governor Smith, Tammany candidate for President, cannot point to more things he has done without being forced to defend himself by explaining why he did them. Explanations usually are more or less apologetic.

It appears from this vantage point that Tammany is not a very popular organization outside of New York City.

Washington switchboard. During the administration of President Coolidge, however, as many telephones have been added to the system as there were in the service thirty-three years after the first central office in Washington was established in 1878. There are now twelve central offices in the capital city as compared with six in 1911. The Washington system includes 580,000 miles of wire, 99 per cent of which is underground.

Enjoy the Thrill of Extra Power ... without extra cost!

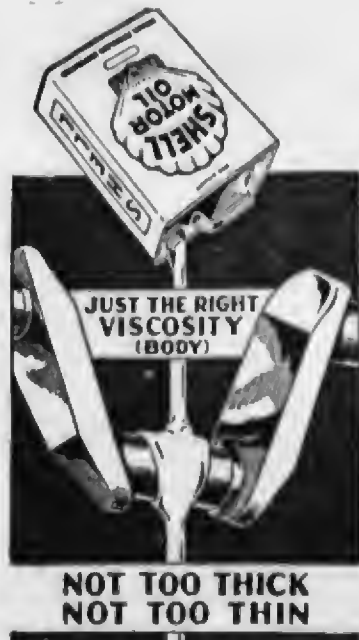

A filling of 400 "Extra Dry" is like adding extra cylinders to your motor. There's a thrill about driving with this gasoline that ordinary fuel can't give you. Get-away is no longer an empty phrase—it really means something. Hills that were formerly a burden become just a challenge—a challenge that can be met victoriously with something in reserve.

The Shell refining process is responsible for the added driving pleasures 400 "Extra Dry" brings. It is a discriminating method which eliminates all the sluggish, greasy elements and retains only the most volatile, live and responsive parts. Every drop vaporizes instantly... every particle is converted into power... you get full mileage from every gallon.

Until you have tried 400 "Extra Dry" Shell Gasoline you have deprived yourself of the thrill which comes from motor-ing at its best... and remember, this extra pleasure can be realized without one cent extra cost.

MUST TEST CATTLE

Lake county, within the next few days, will be compelled to test all of its herds for bovine tuberculosis according to Dr. T. P. Gallahue, county veterinarian, who declares that a census, now being completed, indicates that 95 per cent of the cattle are being examined.

The state law provides, he advises, when more than three-fourths of the herd in a county are being examined.
